

PRECISION DESIGN SYSTEMS

Seal Rack

Precision Design is a full service Manufacturing Systems Integrator. We can design, build and test complete sub-systems on our floor including mechanical, electrical, control systems and instrumentation. We specialize in the manufacturing of compressor seal racks as well as other custom industrial products. Common standards that we conform to are API, ASME, BPE, and UL. We can also work to CE directives and are willing to conform to any special codes or requirements that are applicable to your industry or organization.
