Lab-Pro 1000

“What Makes Our Test Equipment Superior”

Flexible Fuel Cell Test Stand

The Lab-Pro “Flexible Test System” by PDS is a multi-plat formed, modular fuel cell test system. What makes the Lab-Pro 1000 so unique is its ability to grow, as your testing needs increase. The Lab-Pro 1000 will satisfy both laboratory and production requirements. Its modular design allows for new testing protocols to be added as your technology changes, without the need to purchase an entirely new test system. The Lab-Pro 1000 is available with many standard options making it the right choice for the serious developer.

- Multi-Platform Design - Satisfies Laboratory and Production requirement
- Modularity - Quick and Easy changes in Test Protocols
- Plug and Play Modules - Cost effectively expand your system
- Standard Options – Many available Including, Environmental Chamber, Accelerated Aging and Wireless Access
- Safety – Self contained safety features
